ACCELERATING SMARTER PAYMENTS

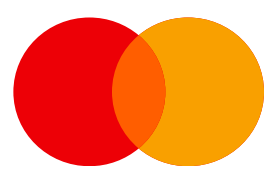

Halo Dot provides certified, secure and modular software that allows anyone to accept contactless payments directly on their devices.

What is SoftPOS?

SoftPOS describes software-based Point-of-Sale applications that enable contactless payments on any mobile device. This eliminates the need for traditional hardware-based POS terminals, providing instant access to a scalable payment solution. SoftPOS creates better user experiences & transforms payment acceptance.

We accept major card brands, local schemes & digital wallets

We provide innovative SoftPOS Solutions for

TELCOS

RETAIL

FINANCIAL SERVICES

LOGISTICS

EVENTS & HOSPITALITY

Payment technology for merchants

White label

A feature-rich application that allows you to apply your brand to a pre-certified app.

App to App

A companion app that allows your existing app to process contactless card transactions.

Embed

A software development kit that allows integrators to embed contactless tap functionality into their mobile apps.
